SUMMARY of the Quantities of each kind of CORN produced in *Ireland* in each Year of the Period between 1643 and 1851, for which Information has been furnished to the Government.

* There are no Returns previously to this date that can be depended on.

† The Returns for this year (1848) do not include the counties of Waterford and Tipperary, nor the metropolitan district of Dublin; the disturbed state of the country required the whole time and energy of the constabulary, and it become necessary to abandon the Agricultural Inquiry, so far as related to those places. Assuming their produce, however, for 1846 to be equal to 1847, the amount for 1848 should be increased by the addition of 1,389,621 quarters, which would make the total 14,499,521 quarters, instead of 13,109,900 as above stated.

The Returns for 1851 are not completed.
